JIRA-25 Employee Profile Employee Self As a user, I want to employee profile employee self so that the related functionality works as expected. Given the system is operational, when the user performs the intended action, then the system should respond accurately and meet functional expectations.

JIRA-24 AHC Reports Reports AHC As a user, I want to AHC reports reports AHC so that the related functionality works as expected. Given reports exist in the system, when a user views or generates a report, then the report should display accurate and up-to-date information.

JIRA-23 Secretary Dashboard Doctor Calendar As a user, I want to secretary dashboard doctor calendar so that the related functionality works as expected.
Given a user with valid access, when they open the dashboard, then relevant data and visualizations should be displayed correctly without delay.

JIRA-22 Masters Others Approval Setup As a user, I want to masters others approval setup so that the related functionality works as expected. Given the system is operational, when the user performs the intended action, then the system should respond accurately and meet functional expectations.

JIRA-21 Employee Profile Basic Details As a user, I want to employee profile basic details so that the related functionality works as expected. Given the system is operational, when the user performs the intended action, then the system should respond accurately and meet functional expectations.

JIRA-20 Doctor Dashboard OP Dashboard As a user, I want to doctor dashboard OP dashboard so that the related functionality works as expected. Given a user with valid access, when they open the dashboard, then relevant data and visualizations should be displayed correctly without delay.

JIRA-19 Reports Admin Reports Others As a user, I want to reports admin reports others so that the related functionality works as expected. Given reports exist in the system, when a user views or generates a report, then the report should display accurate and up-to-date information.

JIRA-18 Consultant Dashboard My Appointments As a user, I want to consultant dashboard my appointments so that the related functionality works as expected.
Given a user with valid access, when they open the dashboard, then relevant data and visualizations should be displayed correctly without delay.

JIRA-17 Billing Execution OP Bill As a user, I want to billing execution OP bill so that the related functionality works as expected. Given valid billing records, when the user initiates a billing or refund action, then the system should process and update the records accurately.

JIRA-16 Radiology Transactions Reporting Worklist As a user, I want to radiology transactions reporting worklist so that the related functionality works as expected. Given reports exist in the system, when a user views or generates a report, then the report should display accurate and up-to-date information.

JIRA-15 Reports Bb Report Home As a user, I want to reports bb report home so that the related functionality works as expected. Given reports exist in the system, when a user views or generates a report, then the report should display accurate and up-to-date information.

JIRA-14 Doctor Activities Doctor Note As a user, I want to doctor activities doctor note so that the related functionality works as expected. Given the system is operational, when the user performs the intended action, then the system should respond accurately and meet functional expectations.

JIRA-13 Wards Dashboard View Request As a user, I want to wards dashboard view request so that the related functionality works as expected. Given a user with valid access, when they open the dashboard, then relevant data and visualizations should be displayed correctly without delay.

JIRA-12 Nurse Dashboard View Request As a user, I want to nurse dashboard view request so that the related functionality works as expected. Given a user with valid access, when they open the dashboard, then relevant data and visualizations should be displayed correctly without delay.

JIRA-11 Daycare Dashboard View Request As a user, I want to daycare dashboard view request so that the related functionality works as expected. Given a user with valid access, when they open the dashboard, then relevant data and visualizations should be displayed correctly without delay.

JIRA-10 Consultant Dashboard View Request As a user, I want to consultant dashboard view request so that the related functionality works as expected. Given a user with valid access, when they open the dashboard, then relevant data and visualizations should be displayed correctly without delay.

JIRA-9 Radiology Transactions Front Office As a user, I want to radiology transactions front office so that the related functionality works as expected. Given the system is operational, when the user performs the intended action, then the system should respond accurately and meet functional expectations.

JIRA-8 Radiology Transactions Technicians Worklist As a user, I want to radiology transactions technicians worklist so that the related functionality works as expected. Given the system is operational, when the user performs the intended action, then the system should respond accurately and meet functional expectations.

JIRA-7 Doctor Activities Raise Request As a user, I want to doctor activities raise request so that the related functionality works as expected. Given the system is operational, when the user performs the intended action, then the system should respond accurately and meet functional expectations.

JIRA-6 Nurse Activities Raise Request As a user, I want to nurse activities raise request so that the related functionality works as expected. Given a nurse user, when they access ward management features, then they should be able to perform and track patient-related activities seamlessly.

JIRA-5 Billing Execution Deposit Refund As a user, I want to billing execution deposit refund so that the related functionality works as expected. Given valid billing records, when the user initiates a billing or refund action, then the system should process and update the records accurately.

JIRA-4 Reports View Reports Others As a user, I want to reports view reports others so that the related functionality works as expected. Given reports exist in the system, when a user views or generates a report, then the report should display accurate and up-to-date information.

JIRA-3 Daycare Nurse Activities Raise As a user, I want to daycare nurse activities raise so that the related functionality works as expected. Given a nurse user, when they access ward management features, then they should be able to perform and track patient-related activities seamlessly.

JIRA-2 Wards Dashboard Nurse Activities As a user, I want to wards dashboard nurse activities so that the related functionality works as expected. Given a user with valid access, when they open the dashboard, then relevant data and visualizations should be displayed correctly without delay.

JIRA-1 Consultant Dashboard My Inpatients As a user, I want to consultant dashboard my inpatients so that the related functionality works as expected. Given a user with valid access, when they open the dashboard, then relevant data and visualizations should be displayed correctly without delay.

Test Case ID	Title	Category	Steps	Test Data	Expected Result
TC-001	Masters Others Approval Setup - Valid Configuration				Positive
	S01: Login to the system with valid credentials				
	S02: Navigate to Masters Others Approval Setup page				

S03: Configure approval settings with valid data

S04: Save the configuration N/A The system saves the configuration successfully and displays a confirmation message

TC-002 Masters Others Approval Setup - Invalid Configuration Negative

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Configure approval settings with invalid data

S04: Save the configuration N/A The system displays an error message indicating the invalid configuration

TC-003 Masters Others Approval Setup - Empty Configuration Edge S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Leave the configuration fields empty

S04: Save the configuration N/A The system displays an error message requiring mandatory fields to be filled

TC-004 Masters Others Approval Setup - Authorization Check Authorization

S01: Login to the system with invalid credentials

S02: Attempt to navigate to Masters Others Approval Setup page N/A The system denies access to the page and displays an authorization error message

TC-005 Masters Others Approval Setup - Performance Check Non-Functional

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Configure approval settings with large data

S04: Save the configuration N/A The system saves the configuration within a reasonable time frame (less than 5 seconds)

TC-006 Masters Others Approval Setup - UI Validation Positive S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page N/A The system displays the Masters Others Approval Setup page with all UI elements rendered correctly

TC-007 Masters Others Approval Setup - Cancel Configuration Positive

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Configure approval settings with valid data

S04: Click the cancel button N/A The system discards the configuration changes and returns to the previous page

TC-008 Masters Others Approval Setup - Duplicate Configuration Negative

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Configure approval settings with existing data

S04: Save the configuration N/A The system displays an error message indicating duplicate configuration

TC-009 Masters Others Approval Setup - Field Validation Negative S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Enter invalid data in a mandatory field

S04: Save the configuration N/A The system displays an error message indicating invalid data

TC-010 Masters Others Approval Setup - Dependency Check Positive

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Configure approval settings with dependent data

S04: Save the configuration N/A The system saves the configuration and updates dependent data correctly

TC-011 Masters Others Approval Setup - Concurrent Access Non-Functional

S01: Login to the system with multiple users

S02: Navigate to Masters Others Approval Setup page

S03: Configure approval settings with valid data

S04: Save the configuration N/A The system handles concurrent access and saves the configuration correctly

TC-012 Masters Others Approval Setup - Data Persistence Positive

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Configure approval settings with valid data

S04: Save the configuration

S05: Logout and login again N/A The system retains the configured approval settings

TC-013 Masters Others Approval Setup - Help Documentation Positive

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Access the help documentation N/A The system displays relevant help documentation for Masters Others Approval Setup

TC-014 Masters Others Approval Setup - Error Handling Negative S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Simulate an error condition

S04: Save the configuration N/A The system displays an error message and handles the error condition correctly

TC-015 Masters Others Approval Setup - Security Check Authorization S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Attempt to access sensitive data N/A The system restricts access to sensitive data and displays an authorization error message

TC-016 Masters Others Approval Setup - Compatibility Check Non-Functional

S01: Login to the system with valid credentials using different browsers

S02: Navigate to Masters Others Approval Setup page N/A The system displays the Masters Others Approval Setup page correctly across different browsers

TC-017 Masters Others Approval Setup - Backup and Recovery Non-Functional

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Configure approval settings with valid data

S04: Save the configuration

S05: Simulate a system failure

S06: Recover the system N/A The system recovers the configured approval settings correctly

TC-018	Masters Others Approval Setup - Audit Trail	Positive	S01: Login to the system with valid credentials
S02: Navigate to Masters Others Approval Setup page			
S03: Configure approval settings with valid data			
S04: Save the configuration	N/A	The system maintains an audit trail of the configuration changes	
TC-019	Masters Others Approval Setup - Reporting	Positive	S01: Login to the system with valid credentials
S02: Navigate to Masters Others Approval Setup page			
S03: Generate a report of the approval settings	N/A	The system generates a report of the approval settings correctly	
TC-020	Masters Others Approval Setup - Search Functionality	Positive	S01: Login to the system with valid credentials
S02: Navigate to Masters Others Approval Setup page			
S03: Search for specific approval settings	N/A	The system displays the search results correctly	
TC-021	Masters Others Approval Setup - Sorting and Filtering	Positive	S01: Login to the system with valid credentials
S02: Navigate to Masters Others Approval Setup page			
S03: Sort and filter the approval settings	N/A	The system sorts and filters the approval settings correctly	
TC-022	Masters Others Approval Setup - Pagination	Positive	S01: Login to the system with valid credentials
S02: Navigate to Masters Others Approval Setup page			
S03: Paginate through the approval settings	N/A	The system paginates through the approval settings correctly	
TC-023	Masters Others Approval Setup - Accessibility	Non-Functional	S01: Login to the system with valid credentials
S02: Navigate to Masters Others Approval Setup page using assistive technologies			
The system is accessible using assistive technologies			
TC-024	Masters Others Approval Setup - Localization	Positive	S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Change the language and locale settings N/A The system displays the Masters Others Approval Setup page in the selected language and locale

TC-025 Masters Others Approval Setup - Browser Cache Non-Functional

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Clear the browser cache

S04: Refresh the page N/A The system displays the Masters Others Approval Setup page correctly after clearing the browser cache

TC-026 Masters Others Approval Setup - Session Expiration Non-Functional

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Wait for the session to expire

S04: Attempt to access the page N/A The system logs out the user and displays a session expiration message

TC-027 Masters Others Approval Setup - Cookie Management Non-Functional

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Disable cookies

S04: Attempt to access the page N/A The system displays an error message indicating that cookies are required

TC-028 Masters Others Approval Setup - JavaScript Disabled Non-Functional

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Disable JavaScript

S04: Attempt to access the page N/A The system displays an error message indicating that JavaScript is required

TC-029 Masters Others Approval Setup - CSS Disabled Non-Functional

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Disable CSS

S04: Attempt to access the page N/A The system displays the Masters Others Approval Setup page with minimal styling

TC-030 Masters Others Approval Setup - Network Connectivity Non-Functional

S01: Login to the system with valid credentials

S02: Navigate to Masters Others Approval Setup page

S03: Simulate a network connectivity issue

S04: Attempt to access the page N/A The system displays an error message indicating a network connectivity issue
